About Me

Computer Engineering student with a strong interest in AI, intelligent systems, and front-end development, passionate about building practical, user-centered solutions. Developed projects including an AI-powered communication system and a purchase-assistant chatbot. Known for reliability, consistency, and taking initiative in both individual and team environments, with a continuous drive to learn and improve.

Technical Skills

- Programming: Python, Java, C/C++, C#
- Web: HTML, CSS, JavaScript, Streamlit, Twilio
- Tools: MongoDB, Azure AI, OpenAI APIs, Unity
- Hardware: Raspberry pi board, Arduino board
- Concepts: AI, NLP, Computer Vision, Embedded Systems
- Git, GitHub
- AWS

Soft Skills

- Problem Solving
- Communication Skills
- Willingness to
- Leadership and Management
- Critical Thinking
- Teamwork and Collaboration

languages

Arabic

English

Education

Computer Engineering

University of Bahrain

2022 – 2026

(Current)

Experience

- **Project Coordinator – GITEX Global 2025 (Tech Innovators Program)**
 - Led a team of students to present and demonstrate a group of projects to event attendees
 - Engaged with visitors, explaining technical concepts clearly to both technical and non-technical audiences
 - Represented the project in a professional environment, enhancing communication and presentation skills

Projects

- **Azure AI Language Learning Chatbot**

Developed an interactive chatbot using Azure AI and Python to help users learn new languages through real-time conversations, quizzes, and feedback.

– Experience Highlight:

Showcased at GITEX Global 2025 as part of a selected student team

- **BlinkTalk: AI Communication System**

Implemented real-time computer vision logic to enable a hands-free communication system using eye-blinks.

- **OpenAI Purchases Chatbot**

Built an AI-powered chatbot using OpenAI, Python, and MongoDB to help users query and analyze their purchase data efficiently.

Certifications

- Microsoft Certified: Azure AI Engineer Associate
- Ethics Of Artificial Intelligence by Coursera
- Python for Data Science, AI & Development by IBM
- Introduction to Artificial Intelligence by IBM
- Generative AI: Introduction and Applications by IBM
